

arterial thromboembolism, intra-arterial streptokinase for (*tip*), February, p. 306

artery operations, combined aortic and renal (*tip*), January, p. 255

arthritis, septic, caused by *Clostridium perfringens*, *March, p. 135

asbestos exposure, mesothelioma from (*tip*), January, p. 298

ascites

- with hydrothorax, management of (*tip*), April, p. 267
- transudative vs. exudative (*tip*), January, p. 269

asthma

- acute, beta₂ agonists for, *May, p. 184
- childhood, cromolyn vs. theophylline for (*tip*), June, p. 218
- cromolyn provides good control of (*med*), April, p. 219
- prodromal itching in (*tip*), February, p. 296

asthmatic children, steroid therapy and cataracts in (*tip*), January, p. 250

atrial fibrillation and occult hyperthyroidism (*tip*), April, p. 268

atrial natriuretic factor (*tip*), January, p. 259

attention deficit disorder, efficacy of megavitamin therapy for (*tip*), February, p. 275

autopsy, reviving (*ed*), June, p. 87

b

back pain, low, evaluation of (*tip*), January, p. 299

bacteremia

- in a geriatric population (*tip*), March, p. 216
- Staphylococcus epidermidis*, in neonates (*tip*), June, p. 197

bacterial infection, neutrophil changes in (*tip*), June, p. 198

barium meal, double-contrast, vs. endoscopy (*tip*), June, p. 193

basilar pneumothorax in the supine patient, *June, p. 127

bathtub-related electrocution (*tip*), March, p. 212

BCG vaccination, local complications of (*tip*), June, p. 225

behavioral health risks (*tip*), April, p. 259

beta₂ agonists for acute asthma, *May, p. 184

beta blockers

- epinephrine with, hazards of (*tip*), May, p. 230
- with intrinsic sympathomimetic activity, *January, p. 115

biliary obstruction, diagnostic imaging in (*tip*), June, p. 224

biliary surgery, prophylactic antibiotics in (*tip*), April, p. 270

biopsy

- for diagnosis of melanoma, pitfalls in (*tip*), March, p. 211
- liver (*tip*), April, p. 238
- outpatient needle, of the lung (*tip*), January, p. 249
- rectal, accuracy of (*tip*), February, p. 291
- value of, in inflammatory skin diseases, *January, p. 197

bites, dog, facial injuries from (*tip*), January, p. 239

bleeding, variceal, selective and nonselective shunts for (*tip*), February, p. 298

bleeding time, prolonged (*tip*), April, p. 240

blindness, legal, in the over-65 age group (*info pl*), March, p. 256

blood pressure, elevation of, by TRH (*tip*), January, p. 270

blood products, transmission of hepatitis A by (*tip*), March, p. 235

bone marrow transplantation, pulmonary complications of (*tip*), May, p. 220

bowel, irritable, syndrome: treatment update, *January, p. 191

bowel disease, inflammatory, immunocompetence and (*tip*), March, p. 218

brain tumors, epidemiology of, enters a new era (*news*), May, p. 243

breast cancer

- carries increased risk of colon cancer (*med*), January, p. 236
- early diagnosis of (*tip*), January, p. 252

- and estrogen use (*tip*), February, p. 282
- radiation-induced (*tip*), January, p. 298

breast disorders in nursing women (*tip*), February, p. 317

breast feeding, maternal employment and (*tip*), June, p. 209

bronchiolitis and subsequent wheezing (*tip*), January, p. 266

bronchoscopy, fiberoptic (*tip*), April, p. 229

bronchospasm from sulfites (*tip*), February, p. 306

bronchus, mucoid impaction of, *April, p. 119

Burkitt's lymphoma, *May, p. 153

burn patients, alcohol withdrawal in (*tip*), March, p. 216

burns, chemical skin, *June, p. 149

C

calculi, urinary tract, in pregnancy, *June, p. 143

cancer

- breast, carries increased risk of colon cancer (*med*), January, p. 236
- breast, early diagnosis of (*tip*), January, p. 252
- breast, and estrogen use (*tip*), February, p. 282
- breast, radiation-induced (*tip*), January, p. 299
- colon, ovarian metastases from (*tip*), June, p. 196
- colorectal, resection of hepatic metastases from (*tip*), January, p. 269
- colorectal, screening for (*tip*), May, p. 236
- head and neck, advanced, treatment of (*tip*), May, p. 224
- lung, mediastinal lymph node size in (*tip*), June, p. 217
- prostatic, hypophysectomy for (*tip*), January, p. 256
- prostatic, osteoblastic lesions in (*tip*), January, p. 240
- rectal, staging of, with CT scanning (*tip*), April, p. 267

- treatment of, hyperthermia may be a fourth modality in (*news*), March, p. 266
- cancer chemotherapy, immunization during (*tip*), February, p. 296
- cancer patients
 - lung, answering the relatives of (*tip*), June, p. 212
 - sexuality in, *January, p. 153
- Candida infection, systemic, in infants (*tip*), June, p. 204
- carcinoma
 - endometrial, screening for (*tip*), February, p. 269
 - hepatocellular (*tip*), January, p. 264
- cardiac emergencies, external pacemaker shows promise for (*med*), February, p. 265
- cardiac examination in children, *April, p. 105
- cardiac rehabilitation (*tip*), January, p. 300
- cardiac surgery, mannitol reperfusion after (*tip*), June, p. 203
- cardiac valve replacement, repeat (*tip*), March, p. 250
- cardiogenic cerebral emboli (*tip*), June, p. 205
- cardiology, nuclear, *May, p. 157
- cardiomyopathy, idiopathic restrictive (*tip*), March, p. 211
- cardiophrenic angle nodes in lymphoma (*tip*), April, p. 224
- cardiorespiratory effects of antishock trousers (*tip*), March, p. 223
- cataracts, steroid therapy and, in asthmatic children (*tip*), January, p. 250
- caustic substances, esophageal injury from (*tip*), March, p. 144
- cerebral emboli, cardiogenic (*tip*), June, p. 205
- cervical lymph node metastases, treatment of (*tip*), June, p. 204
- cervicitis, chlamydial (*tip*), March, p. 232
- charcoal, oral, for theophylline overdose (*tip*), February, p. 269
- chemical skin burns, *June, p. 149
- chemotherapeutic agents, extravasation of, *March, p. 147
- chemotherapy
 - cancer, immunization during (*tip*), February, p. 296
 - for hairy cell leukemia (*tip*), January, p. 249
 - short-course, for tuberculosis (*tip*), April, p. 246
- chest wall tenderness in pulmonary embolism (*tip*), June, p. 198
- chest x-ray, routine, end of (*ed*), April, p. 100
- childhood, sudden death in, risk factors for, are identified (*med*), May, p. 193
- childhood headaches, classifying, in temporal patterns may be useful (*med*), January, p. 233
- children
 - cardiac examination in, *April, p. 105
 - chronic cough in, woodburning stoves may cause (*med*), June, p. 183
 - chronic lymphadenopathy in, and adolescents, *May, p. 166
 - empyema in (*tip*), January, p. 260
 - fever and petechiae in, etiology of (*tip*), February, p. 286
 - genital HSV infection in (*tip*), May, p. 202
 - helping, cope with death, *March, p. 175
 - laparoscopy in, and adolescents (*tip*), May, p. 229
- chlamydial cervicitis (*tip*), March, p. 232
- cholangiography, percutaneous, and acute renal failure (*tip*), January, p. 263
- cholesterol, high, survey shows need for awareness of (*med*), April, p. 220
- chronic complainer, coping with, *February, p. 211
- cirrhosis, asymptomatic, covert encephalopathy is common in (*med*), January, p. 234
- Clostridium perfringens*, septic arthritis caused by, *March, p. 135
- CNS malignancies, CSF monoclonal antibodies in (*tip*), January, p. 252
- coagulopathy and neonatal intracranial hemorrhage (*tip*), February, p. 300
- coarctation, synthetic patch aortoplasty for (*tip*), March, p. 244
- cocaine, on-the-job use of, is on the rise (*news*), May, p. 244
- cocaine habit, *February, p. 173
- cocaine-related death (*tip*), May, p. 234
- colitis, pseudomembranous, antibiotic-associated, *May, p. 115
- collagenase nucleolysis, favorable results are reported with (*med*), February, p. 265
- colon cancer
 - breast cancer carries increased risk of (*med*), January, p. 236
 - ovarian metastases from (*tip*), June, p. 196.
- colonic polyps, skin tags may serve as a marker for (*med*), January, p. 234
- colonoscopy in treatment of Ogilvie's syndrome (*tip*), April, p. 259
- colorectal cancer
 - resection of hepatic metastases from (*tip*), January, p. 269
 - screening for (*tip*), May, p. 236
- coma, diabetic, hyperosmolar nonketotic (*info pl*), March, p. 256
- complainer, chronic, coping with, *February, p. 211
- compliance, patient, *June, p. 93
- compromised host, infection in (*tip*), January, p. 276
- congenital complete heart block, *January, p. 183
- conjunctivitis, allergic, study compares eye drops for (*med*), May, p. 197
- corneal foreign bodies, management of, *February, p. 149
- coronary angioplasty (*tip*), May, p. 211
- coronary artery disease, physical training in patients with (*tip*), May, p. 203
- coronary bypass surgery, urethral stricture after (*tip*), May, p. 235
- coronary disease, fluoroscopy may be useful in screening for (*med*), April, p. 220

coronary disease risk in teetotalers, alcohol alone may account for (*med*), June, p. 187

cough, chronic, in children, woodburning stoves may cause (*med*), June, p. 183

cough and cold symptoms, drugs for, in hypertensive patients, *March, p. 183

cough tic, psychogenic (*tip*), January, p. 292

counseling, postinfarction, sex appears to be a neglected topic in (*med*), March, p. 206

creatinine levels, serum, during fasting (*tip*), March, p. 238

cromolyn

- provides good control of asthma (*med*), April, p. 219
- vs. theophylline for childhood asthma (*tip*), June, p. 218

cryosurgery, endocardial, stops ventricular tachycardia (*med*), June, p. 187

cryptorchidism, fertility prospects in (*tip*), May, p. 206

cryptosporidiosis in an urban community (*tip*), April, p. 254

crystal deposition in asymptomatic gout (*tip*), April, p. 223

CT scanning, staging of rectal cancer with (*tip*), April, p. 267

cytomegalovirus infection in pregnancy (*tip*), May, p. 230

d

death

- helping children cope with, *March, p. 175
- after myocardial infarction, psychosocial factors and (*ed*), February, p. 104
- of a parent, normal grief in child at, investigators look for (*news*), April, p. 280
- sudden, in childhood, risk factors for, are identified (*med*), May, p. 193

defibrillator designed for lay use is being tested (*med*), May, p. 193

delta agent and fulminant viral hepatitis (*tip*), January, p. 275

depression

- and lymphocyte function (*tip*),

January, p. 240

- masked, more than 15 million Americans may have (*news*), February, p. 328

diabetic coma, hyperosmolar nonketotic (*info pl*), March, p. 256

diabetic eye disease, aldose reductase inhibitors for (*tip*), February, p. 300

diabetic ketoacidosis, recurrent, family stress and (*tip*), January, p. 275

dialysis treatment options (*tip*), June, p. 221

diarrhea

- from dietetic candy (*tip*), May, p. 214
- running induces, in many long-distance runners (*med*), January, p. 234
- traveler's, NIH panel develops guidelines to treat (*news*), May, p. 246

diets, vegan (*ed*), February, p. 105

digital subtraction angiography injection site (*tip*), April, p. 248

digitalis efficacy, reevaluation of (*tip*), March, p. 251

digoxin, maintenance, withdrawing (*tip*), February, p. 282

disopyramide, pyridostigmine blocks anticholinergic effects of (*med*), June, p. 187

dog bites, facial injuries from (*tip*), January, p. 239

doxorubicin-induced alopecia, scalp hypothermia and (*tip*), February, p. 304

drug interactions, nonprescription drugs and (*ed*), April, p. 97

drug therapy for sexually transmitted diseases, *February, p. 256

drugs

- for cough and cold symptoms in hypertensive patients, *March, p. 183
- nonprescription, and drug interactions (*ed*), April, p. 97

e

ear, aging, *February, p. 225

echocardiography in amyloid heart disease (*tip*), May, p. 201

ectopic parathyroid glands, localization of (*tip*), March, p. 232

ectopic pregnancy, diagnosis of, *February, p. 201

elderly

- are at high risk for nosocomial infections (*med*), May, p. 197
- pneumonia in: a nursing home perspective, *February, p. 131
- treatment of hypertension in (*tip*), April, p. 235

elderly patient

- comprehensive assessment of, *May, p. 105
- dependent, home and nursing home care of, *January, p. 163
- special housing needs of, *June, p. 121

electrocution, bathtub-related (*tip*), March, p. 212

emboli, cardiogenic cerebral (*tip*), June, p. 205

embolism, pulmonary, chest wall tenderness in (*tip*), June, p. 198

embolization, coil, of vascular anomalies (*tip*), April, p. 229

emphysema, pulmonary interstitial, *January, p. 137

empyema in children (*tip*), January, p. 260

encephalopathy, covert, is common in asymptomatic cirrhosis (*med*), January, p. 234

endometrial carcinoma, screening for (*tip*), February, p. 269

endoscopy, double-contrast barium meal vs. (*tip*), June, p. 193

entrapment neuropathies of the upper extremity, *January, p. 123

enuresis, nocturnal: a review of treatment approaches, *March, p. 141

epileptic seizures in adults, management of, *June, p. 162

epinephrine with beta blockers, hazards of (*tip*), May, p. 230

esophageal injury from caustic substances (*tip*), March, p. 255

esophageal motility, effects of nifedipine on (*tip*), June, p. 209

esophagitis plays a role in hyperemesis gravidarum (*med*), January, p. 233

estrogen use, breast cancer and (*tip*), February, p. 282
 ethanol depresses left ventricular contractility (*med*), February, p. 265
 euthyroid sick syndrome, *February, p. 236
 exercise
 —and host-defense factors (*tip*), June, p. 196
 —isometric, myocardial dysfunction during (*tip*), March, p. 224
 extravasation of chemotherapeutic agents, *March, p. 147
 eye disease, diabetic, aldose reductase inhibitors for (*tip*), February, p. 300
 eye drops for allergic conjunctivitis, study compares (*med*), May, p. 197

neuropathies, entrapment, of the upper extremity, *January, p. 123

neutrophil changes in bacterial infection (*tip*), June, p. 198

newborns, complications of orotracheal tubes in (*tip*), May, p. 222

nifedipine

- is effective in hypertensive emergencies (*med*), April, p. 220
- effects of, on esophageal motility (*tip*), June, p. 209
- and reperfusion in myocardial infarction (*tip*), May, p. 238

night myopia, *June, p. 105

nitroglycerin action, role of prostacyclin in (*tip*), April, p. 236

nitrous oxide analgesia for outpatient procedures, *January, p. 209

nocturnal enuresis: a review of treatment approaches, *March, p. 141

nonprescription drugs and drug interactions (*ed*), April, p. 97

nonsexual transmission of venereal disease (*tip*), March, p. 226

nontuberculous infection, rifampin for (*tip*), February, p. 318

nosocomial infections

- control of, can reduce hospital care costs (*news*), February, p. 334
- elderly are at high risk of (*med*), May, p. 197

nuclear cardiology, *May, p. 157

nucleolysis, collagenase, favorable results are reported with (*med*), February, p. 265
 nursing women, breast disorders in (*tip*), February, p. 317
 nutrition, parenteral, gallbladder disease induced by (*tip*), February, p. 310

O

occupational health monitoring and surveillance, *February, p. 161
 ocular toxicity of systemic drugs, *January, p. 226
 Ogilvie's syndrome, colonoscopy in treatment of (*tip*), April, p. 259
 oleothorax (*tip*), January, p. 256
 omental tissue, angiogenic factor in (*tip*), June, p. 203
 orotracheal tubes in newborns, complications of (*tip*), May, p. 222
 osmoregulation at high altitudes (*tip*), March, p. 243
 osteoblastic lesions in prostatic cancer (*tip*), January, p. 240
 osteonecrosis of the knee, spontaneous, *April, p. 151
 osteoporosis, primary, *January, p. 216
 otitis media, developments in diagnosing and treating, *March, p. 155
 ovary, polycystic, syndrome, *April, p. 159
 overdoses, *April, p. 141

P

pacemaker(s)

—external, shows promise for cardiac emergencies (*med*), February, p. 265
 —single-chamber, are superior to dual-chamber devices (*med*), May, p. 193
 pain, treatment of, with antidepressants, *February, p. 181
 pancreatic pseudocysts, infected (*tip*), April, p. 238
 papules, pearly penile (*tip*), May, p. 235

parathyroid glands, ectopic, localization of (*tip*), March, p. 232
 parenteral nutrition, gallbladder disease induced by (*tip*), February, p. 310
 parietal cell versus truncal vagotomy (*tip*), February, p. 302
 patient compliance, *June, p. 93
 PCBs, clinical toxicology of, *March, p. 202
 pediatric surgical patients, antimicrobial prophylaxis in (*tip*), May, p. 232
 pelvic inflammatory disease, salpingitis and, *January, p. 143
 penile papules, pearly (*tip*), May, p. 235
 perilymphatic fistula, hearing loss due to (*info pl*), March, p. 256
 peripheral vascular disease (*tip*), February, p. 309
 peroneal nerve lesions, localizing, *February, p. 189
 petechiae, etiology of fever and, in children (*tip*), February, p. 286
 pilocarpine therapy, pigmentary glaucoma is successfully treated with (*news*), January, p. 316
 pneumococcal antigen, rapid detection of (*tip*), June, p. 212
 pneumonia in the elderly: a nursing home perspective, *February, p. 131
 pneumothorax, basilar, in the supine patient, *June, p. 127
 poison warning stickers (*tip*), June, p. 191
 polycystic ovary syndrome, *April, p. 159
 polyps, colonic, skin tags may serve as a marker for (*med*), January, p. 234
 postinfarction counseling, sex appears to be a neglected topic in (*med*), March, p. 206
 povidone-iodine, antibiotics and, for prevention of wound sepsis (*tip*), March, p. 212

pregnancy

—cytomegalovirus infection in (*tip*), May, p. 230
 —ectopic, diagnosis of, *February, p. 201
 —HSV infection, disseminated, in (*tip*), May p. 201
 —urinary tract calculi in, *June, p. 143
 pretibial myxedema, *May, p. 135
 prodromal itching in asthma (*tip*), February, p. 296
 prolactin, testosterone and, levels in runners (*tip*), February, p. 286
 prophylactic antibiotics in biliary surgery (*tip*), April, p. 270
 prostacyclin in nitroglycerin action, role of (*tip*), April, p. 236
 prostatic cancer
 —hypophysectomy for (*tip*), January, p. 256
 —osteoblastic lesions in (*tip*), January, p. 240
 prosthetic graft failure, mechanisms of (*tip*), June, p. 205
 pseudocysts, pancreatic, infected (*tip*), April, p. 238
 pseudomembranous colitis, antibiotic-associated, *May, p. 115
 psychiatric consultation in geriatric inpatients (*tip*), February, p. 294
 psychotherapy, medical, *January, p. 173
 pulmonary cavitation due to *Mycobacterium kansasii* (*tip*), March, p. 246
 pulmonary complications
 —of AIDS (*tip*), March, p. 215
 —of bone marrow transplantation (*tip*), May, p. 220
 —postoperative (*tip*), June, p. 224
 pulmonary embolism, chest wall tenderness in (*tip*), June, p. 198
 pulmonary hemorrhage in patients with SLE (*tip*), February, p. 269
 pulmonary hypertension, primary (*tip*), January, p. 260
 pulmonary interstitial emphysema, *January, p. 137
 pulmonary tuberculosis, current patterns of, *June, p. 113

purpura, thrombotic thrombocytopenic, *February, p. 141
 pyomyositis (*tip*), April, p. 274
 pyridostigmine blocks anticholinergic effects of disopyramide (*med*), June, p. 187

q

quadriplegia from trampoline-related injury (*tip*), June, p. 222

r

radiation-induced breast cancer (*tip*), January, p. 299
 radiotherapy for AIDS-related Kaposi's sarcoma (*tip*), April, p. 245
 ranitidine-associated hepatitis (*tip*), May, p. 221
 rash, gypsy moth (*tip*), February, p. 314
 rectal biopsy, accuracy of (*tip*), February, p. 291
 rectal cancer, staging of, with CT scanning (*tip*), April, p. 267
 red cell morphology in hematuria (*tip*), May, p. 202
 reflux, vesicoureteral (*tip*), March, p. 223
 refugees from Southeast Asia, treatment of, presents new challenges (*news*), January, p. 315
 rehabilitation, cardiac (*tip*), January, p. 300
 renal artery, combined aortic and, operations (*tip*), January, p. 255
 renal failure, acute, percutaneous cholangiography and (*tip*), January, p. 263
 renal parenchyma, adenocarcinoma of, *May, p. 91
 renovascular lesions, thromboxane synthesis in (*tip*), January, p. 286
 respiratory syncytial virus infection (*tip*), May, p. 211
 retrovirus associated with AIDS (*tip*), March, p. 249
 rifampin for nontuberculous infection (*tip*), February, p. 318
 rubella control (*tip*), February, p. 302

runners

—long-distance, running induces diarrhea in many (*med*), January, p. 234
 —testosterone and prolactin levels in (*tip*), February, p. 286

s

sacroiliitis associated with SLE (*tip*), March, p. 250
 salpingitis and pelvic inflammatory disease, *January, p. 143
 sarcoidosis, gastric (*tip*), June, p. 191
 scalp hypothermia and doxorubicin-induced alopecia (*tip*), February, p. 304
 seizures
 —epileptic, in adults, management of, *June, p. 162
 —prognostic indicators for control of (*tip*), June, p. 193
 seminoma, metastatic, VAB-6 regimen for (*tip*), January, p. 259
 sepsis
 —intra-abdominal, laparotomy for (*tip*), January, p. 266
 —wound, antibiotics and povidone-iodine for prevention of (*tip*), March, p. 212
 septic arthritis caused by *Clostridium perfringens*, *March, p. 135
 septicemia, *Staphylococcus epidermidis* (*tip*), April, p. 253
 sex appears to be a neglected topic in postinfarction counseling (*med*), March, p. 206
 sexuality in cancer patients, *January, p. 153
 sexually transmitted diseases, drug therapy for, *February, p. 256
 shunts for variceal bleeding, selective and nonselective (*tip*), February, p. 298
 sick sinus syndrome, *March, p. 117
 sigmoidoscopy, video, second-generation, *March, p. 127
 skin diseases, inflammatory, value of biopsy in, *January, p. 197
 skin-surface touch print for diagnosing fungal infection, *April, p. 189

skin tags may serve as a marker for colonic polyps (*med*), January, p. 234

SLE

—laryngeal complications of (*tip*), May, p. 214
 —pulmonary hemorrhage in patients with (*tip*), February, p. 269
 —sacroiliitis associated with (*tip*), March, p. 250
 smoking cessation, new studies show the necessity for (*news*), February, p. 323
 somatic complaints, adolescent stress and (*ed*), May, p. 88
 splenectomy, severe infection after (*tip*), February, p. 275
Staphylococcus epidermidis bacteremia in neonates (*tip*), June, p. 197
Staphylococcus epidermidis septicemia (*tip*), April, p. 253
 steroid therapy and cataracts in asthmatic children (*tip*), January, p. 250
 stones, urinary tract, *February, p. 219
 streptokinase
 —allergic reaction to (*tip*), May, p. 222
 —intra-arterial, for arterial thromboembolism (*tip*), February, p. 306
 —for myocardial infarction (*tip*), April, p. 223
 stress
 —adolescent, and somatic complaints (*ed*), May, p. 88
 —family, and recurrent diabetic ketoacidosis (*tip*), January, p. 275
 stress fractures, diagnosis of (*tip*), February, p. 270
 stroke, acute, management of, *March, p. 190
 subendocardial infarction, significance of, *February, p. 123
 sudden death in childhood, risk factors for, are identified (*med*), May, p. 193
 sulfites, bronchospasm from (*tip*), February, p. 306
 sulindac, toxic neurologic effects of (*tip*), April, p. 270

surgical patients, lymphocyte function in (*tip*), May, p. 224
systemic drugs, ocular toxicity of, *January, p. 226

t

telangiectasias, gastrointestinal, hemodialysis and (*tip*), May, p. 234
testis, undescended, evaluating, *June, p. 133
testosterone and prolactin levels in runners (*tip*), February, p. 286
theophylline, cromolyn vs., for childhood asthma (*tip*), June, p. 218
theophylline overdose, oral charcoal for (*tip*), February, p. 269
thrombocytopenic purpura, thrombotic, *February, p. 141
thromboembolism, arterial, intra-arterial streptokinase for (*tip*), February, p. 306
thrombolytic agent, anocrod shows promise as (*med*), May, p. 197
thromboxane synthesis in renovascular lesions (*tip*), January, p. 286
tic, cough, psychogenic (*tip*), January, p. 292
toothpick-related injury (*tip*), April, p. 230
toxicology, clinical, of PCBs, *March, p. 202
trampoline-related injury, quadriplegia from (*tip*), June, p. 222
transluminal angioplasty for aortitis syndrome (*tip*), February, p. 294
transplantation, bone marrow, pulmonary complications of (*tip*), May, p. 220
trauma, hormonal status after (*tip*), June, p. 217
traveler's diarrhea, NIH panel develops guidelines to treat (*news*), May, p. 246
TRH, elevation of blood pressure by (*tip*), January, p. 270
trigeminal neuralgia, surgical treatment of, *May, p. 143
truncal vagotomy, parietal cell vs. (*tip*), February, p. 301

tuberculosis

—pulmonary, current patterns of, *June, p. 113
—short-course chemotherapy for (*tip*), April, p. 246

tumor(s)

—brain, epidemiology of, enters a new era (*news*), May, p. 243
—imaging of, with monoclonal antibodies (*tip*), June, p. 213

u

umbilical cord prolapse (*tip*), May, p. 216
upper extremity, entrapment neuropathies of, *January, p. 123
urethral overdilatation for urinary tract symptoms (*tip*), March, p. 226
urethral stricture after coronary bypass surgery (*tip*), May, p. 235
urinalysis: the physician's responsibility, *January, p. 103
urinary tract calculi in pregnancy, *June, p. 143
urinary tract stones, *February, p. 219
urinary tract symptoms, urethral overdilatation for (*tip*), March, p. 226
urticaria, new antihistamine without CNS effects relieves (*med*), April, p. 219

v

VAB-6 regimen for metastatic seminoma (*tip*), January, p. 259
vaccination
—BCG, local complications of (*tip*), June, p. 225
—for *H. influenzae* infection, CDC recommends early (*news*), June, p. 234
vaccine, measles, reimmunization with (*tip*), April, p. 230
vaginitis, nonspecific, single-dose therapy for (*tip*), April, p. 236
vagotomy, parietal cell vs. truncal (*tip*), February, p. 302
variceal bleeding, selective and nonselective shunts for (*tip*), February, p. 298

vascular anomalies, coil embolization of (*tip*), April, p. 229
vascular disease, peripheral (*tip*), February, p. 309
vascular reactions to albuterol (*tip*), May, p. 216
vasodilator and inotropic therapy for heart failure, *June, p. 177
vegan diets (*ed*), February, p. 105
venereal disease, nonsexual transmission of (*tip*), March, p. 226
ventricular arrhythmias, after myocardial infarction (*tip*), January, p. 286
ventricular contractility, left, ethanol depresses (*med*), February, p. 265
ventricular tachycardia, endocardial cryosurgery stops (*med*), June, p. 187
vertebrobasilar arterial insufficiency (*tip*), February, p. 285
vesicoureteral reflux (*tip*), March, p. 223
video sigmoidoscopy, second-generation, *March, p. 127
vomiting, chronic, evaluation of (*tip*), April, p. 248

w

weight control (*ed*), January, p. 96
wheezing, subsequent, bronchiolitis and (*tip*), January, p. 266
woodburning stoves may cause chronic cough in children (*med*), June, p. 183
wound sepsis, antibiotics and povidone-iodine for prevention of (*tip*), March, p. 212

x

x-ray, routine chest, end of (*ed*), April, p. 100
